TRAVEL SUPPORT

- In addition to daily grant amounts, travel expenses are also covered. The amount of travel expenses is calculated using the “Distance Calculator” available at the link below:
<https://erasmus-plus.ec.europa.eu/resources-and-tools/distance-calculator>
- The distance calculator should be used to determine the distance in kilometers between the employee's place of residence and the place of activity, and the travel allowance should be calculated using the table below. The kilometers shown in the distance calculator correspond to the round-trip allowance amount in the table below, and this amount is not multiplied by two. The amounts shown in the table are in Euros.

Distance	Standard Travel Grant	Green Travel Grant
Between 10-99 KM	28	56
Between 100-499 KM	211	285
Between 500-1999 KM	309	417

- Staff may participate in the activity without receiving a grant if they wish. To benefit from the activity without a grant, an application must be submitted and evaluated along with other applications. The difference for staff without a grant is that they are not included in budget calculations and no payment is made to them. Not receiving a grant is not a reason for staff not to be included in the selection process.

INCLUSION SUPPORT

- The Erasmus+ Program encourages the participation of people with special needs in the program. A person with special needs is a potential participant whose personal physical condition, mental state, or health condition prevents them from participating in the project/mobility activity without additional financial support. In order for additional grants to be provided to staff requiring inclusion support, the University must apply to the National Agency for additional grants.
